

Drug Project – Fortune Teller

You are going to research a drug that you get to choose in class. No two groups or individual will be researching the same drug.

You will be answering the following questions, then putting your questions and answers into a Fortune Teller. When all groups have finished the fortune teller I will make enough copies for the class to play in groups. You will be recording the answers on a sheet of paper.

You will have to provide a picture of your drug, a website where someone could go to get help, and the resources that you used to research your information.

You will be able to use the computers for this project however you will be brainstorming different “search engines” and websites that you can use to ensure you are getting accurate information.

Questions to research

1. What makes this drug different from other drugs
2. What are some short term effects of this drug
3. Name a long term effect of this drug
4. How do you take this drug (injection, smoking, snorting or a variety)
5. What is this drug
6. How long can the effects of this drug last
7. What happens to the behavior of people after they have taken this drug
8. What toxic effects can this drug have on your brain?

Other items that you must have for your Fortune Teller

1. Picture of your drug – in the form you would use it
2. One or more website that you could go to for help
3. All the resources that you used in finding your information
4. On a separate piece of paper you must hand in all the research information that you gathered for the questions and answers

Planning 10 – Drug Unit

Names: _____ **Block:** _____

Criteria

Criteria	Winning all the Gold metals! 4	Running and keeping up with the other kids 3	Able to walk without holding on 2	Learning to walk but unstable 1
Answering all 8 questions	All questions have been answered in great detail	1 or 2 questions have not been answered in enough detail	3 or 4 questions have not been answered in enough detail	More than 5 questions have not been answered in enough detail
Having a website to go for help	Has one or more great websites where someone could go to for more information on the drug and for help <i>(the site is a valid one and provides additional information on the drug)</i>	Has one website where someone could go to for more information on the drug and for help <i>(this site is not very valid and does not give enough additional information)</i>	Has one website but does not have an area where someone could go to for more information on the drug and/or for help <i>(this site is not very valid and does not give enough additional information)</i>	Does not have a website where a person could go to for more information on the drug and for help <i>(the site chosen is not a valid website)</i>
Neatness and clarity of Fortune Teller	Writing is neat, able to follow the questions and answers very clearly	Writing is somewhat neat, able to follow the questions and answers very clearly	Writing is hard to read, mostly able to follow the questions and answers very clearly	Writing is hard to read, questions and answers are not very clearly
Picture of the drug	A clear picture of the drug in the form that it would be used	A somewhat clear picture of the drug in the form that it would be used	A picture however not in the form that they drug would be used in	A picture but unable to distinguish what it is
Information sheet on the questions and answers	Included all the research questions and answers on a separate sheet of paper.	Missing 1 or 2 of the research questions and answers on a separate sheet of paper.	Missing 3 or 4 of the research questions and answers on a separate sheet of paper	Missing 5 or 6 of the research questions and answers on a separate sheet of paper

/2 (Bonus marks for handing in criteria sheet)
