Mitered V on Bottom of garment

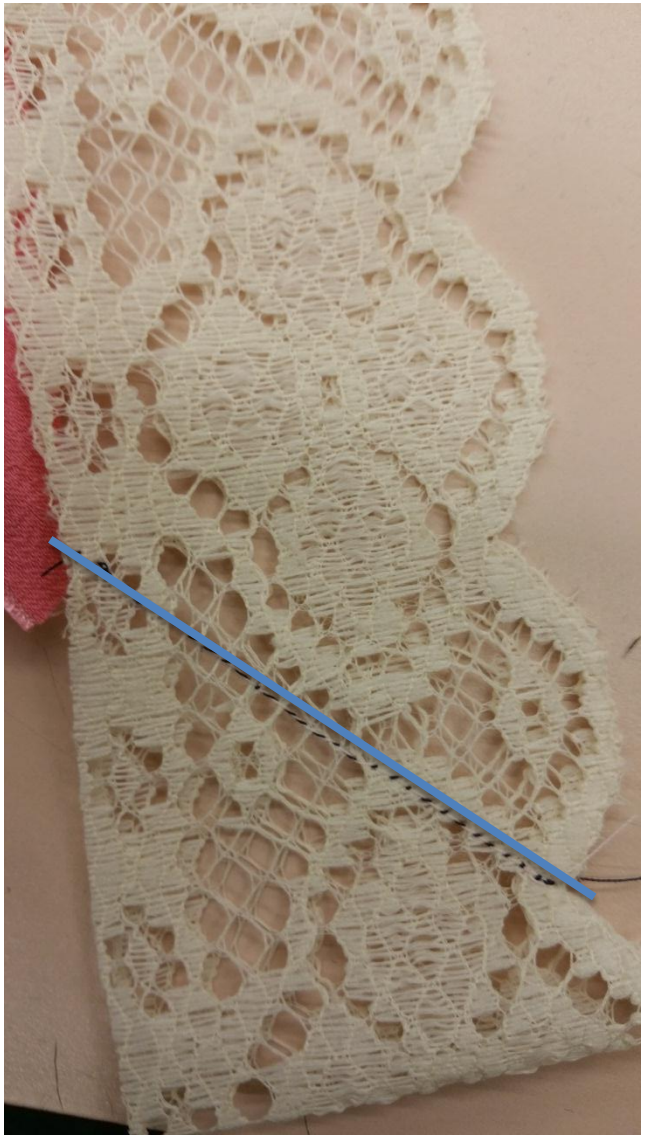
Fold the corner of the garment in half where you want the mitered corner to go

Fold the lace right sides together centering the lace motif and pin

Place tape along the edge of the lace that is inline with the angle

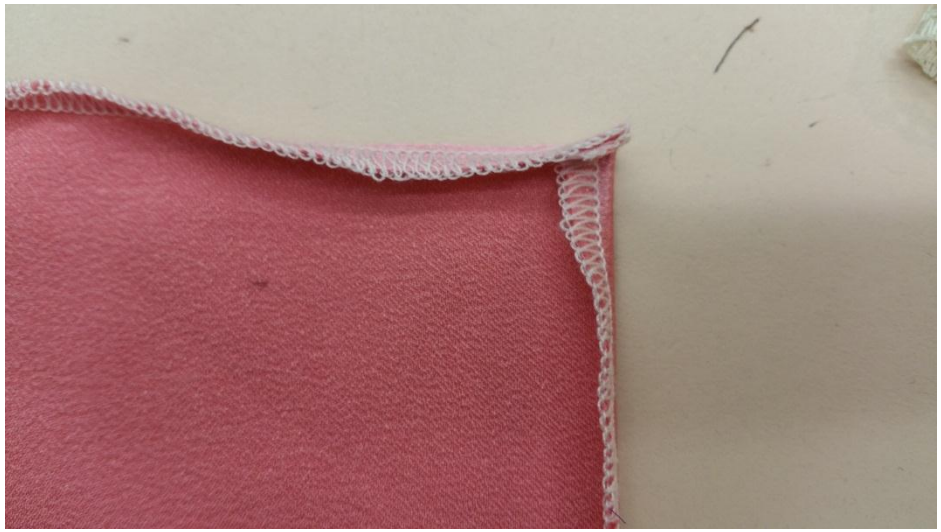
Really important to make sure the seam on the lace will match the corner

- Sew along the side the tape with a narrow zigzag

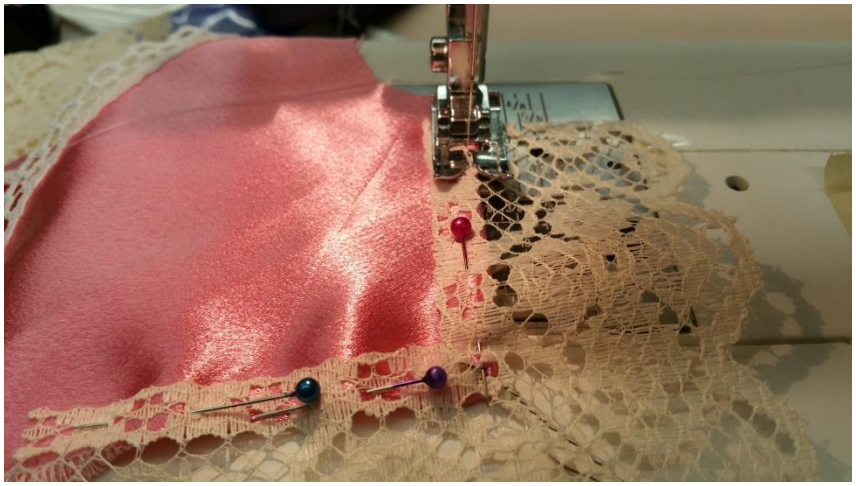


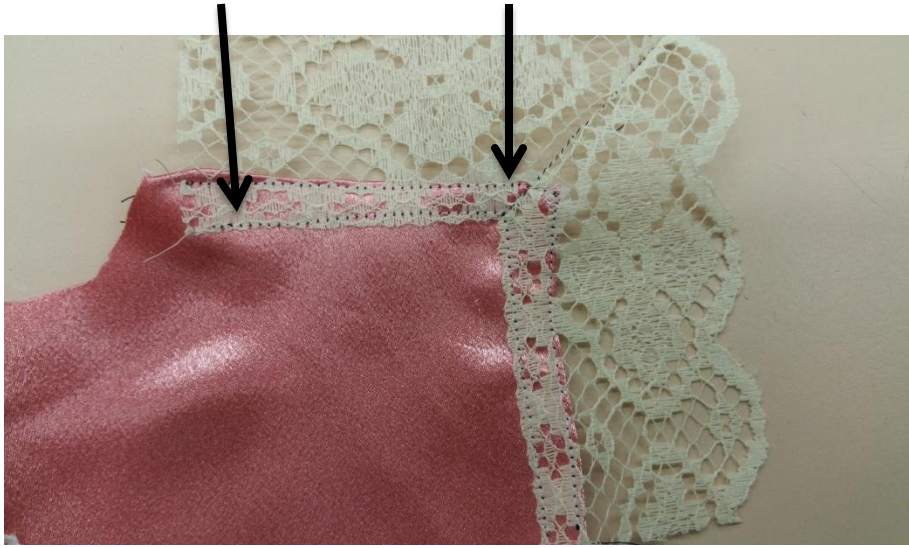
- Check fit and it perfect then trim the extra lace off and press

- Seam finish the edges where the lace will go onto and then press to wrong side



- Place lace on top of the garment and pin in place.



- Sew with a narrow zig zag or straight stitch on the top and bottom part of the lace where the lace and the garment meet


- Stitched top and bottom
